

Did You Know?

The average household uses 6800 gallons per month. Let's see how the cost compares to bottled water.

For 6800 gallons:

Alligator Rural Water \$65.40 (\$27.00 for 2000 gallons & \$8.00 per 1000 after)

Dollar General \$6800.00 + tax (\$1.00 per gallon of bottled water.)

Convenience Store \$56576.00

1 gallon of water equals about 6.4 20 ounce bottles.

$6.4 \times 6800 = 43,520$ bottles!

$43,520 \times \$1.30 = \$56,576.00$ for 6800 gallons of water.

That is considering you bought Aquafina bottles.

If you prefer FIJI bottled water the cost would be as follows:

Taking the same math- $43,520 \times \$2.59 = \$112,716.80!$

The average toilet can hold about 5 gallons in the tank.

ARWS \$0.04 DG \$5.00 Gas Station \$41.60

A standard tub holds about 40 gallons of water.

ARWS \$0.32 DG \$40.00 Gas Station \$332.80
